Calibration Laboratories

**Mitutoyo** America

Through our partnership with Mitutoyo, TMI is pleased to announce we are an authorized dealer of Mitutoyo CMM's.

Mitutoyo CMMs use their global metrology software for measuring with or without a CAD model for automatic part program generation. Their range of accessories also includes probe systems, change racks and non-contact CMM probes designed to power their CMM parts for a wide range of applications on the production line.
