Who is TMI?

Started in 1991, TMI currently has 30 locations across the United States comprised of full service accredited laboratories and resident on-site technical service labs. There are plans to add additional accredited locations as required in the future.

TMI has consistently delivered full service calibration support to its customers in the government and commercial markets. With our comprehensive list of capabilities and our ability to be flexible, TMI has been able to partner with our customers to create customized asset management and calibration service programs to support each customer's unique requirements.

TMI continues to maintain the highest level of Quality under our ISO/IEC 17025 accreditation which is written in a language relevant to the laboratory operations, meeting the principals of ISO 9001 and aligned with its pertinent requirements. All calibrations are fully traceable to the National Institute of Standards & Technology (NIST) and compliant to ISO 10012. TMI is accredited by ANAB to ISO/IEC 17025:2017, ANSI/NCSL Z540-1-1994 and ANSI/NCSL Z540.3-2006 with a broad scope of capabilities. TMI has a mastery of standard requirements in our customers' industrial sectors (ISO 10012, ISO 9001, ISO 17025, and NADCAP).

Goal

Our goal is to provide service for all of your test & measurement equipment from a single source in a timely manner at a competitive price.

Levels of Calibration Offered

Basic Calibration

A NIST traceable Certificate of Calibration is provided stating that the item passed calibration. Data is provided for any out of tolerance condition.

Calibration with Data

Same as above but includes As Found/Left data for analysis.

ISO/IEC 17025 or Z540.3-2006 Accredited Calibration

These accredited calibrations are the highest levels of calibration and includes the information above combined with statements of uncertainty for each measurement.

Cleanroom Certification

The company that has brought you unparalleled calibration services since 1991 now proudly offers Cleanroom and Safety Cabinet Certification Services.

- **CLEANROOMS**
- **SAFETY CABINETS**

- Program tailored to your company requirements.

Just tell us your needs. We will customize solutions to your unique requirements.

TMI also provides Cleanroom Certification and New/Used Test Equipment Sales.

Why Choose TMI?

- We understand that our customer's success determines our success...TMI exists only because of our customers.
- We are large enough to get the job done correctly but small enough to care.
- Our goal is to provide a maximum cost savings to you our business partner.
- Free Repair Estimates.
- Free Pick-up and Delivery near one of our Network Labs.
- Free use of our online Asset Tracking Software (IndySoft Commercial Lab Management)

A Message from Our Founders

While quality and capabilities are extremely important, there is nothing more important than customer service. We can have more accuracy and capabilities than the best facilities in this nation, but without satisfied customers, we will be the best calibration company that went out of business!

TMI's policy is just say YES. This means that if a customer asks you to do something that we CAN do, then say "YES, we can" and then actually do it. If it is something that we CAN'T do, then explain why we can't and FIND them someone who can.

Wendy and Mike Floyd

TMI Founders

New Equipment Sales

Through our partnerships and our direct distributor programs, TMI has become a top tier distributor for your new equipment needs; from hand held tools to capital equipment including CMM's

- Added Savings from Reduced Calibration Costs
- Shorter Delivery Schedules...you get it quicker...less down time
